

### **Definition of Composite School**

“Any school having same management at all the levels/stages (Elementary and Secondary/Higher Secondary sections) and is within the same Boundary/Compound/Campus of the school shall be treated as Composite school”.

“Further, this is also clarified that even if the Secondary Stage/Section of the school lies within the same Boundary/Compound/campus of the school but the Elementary Sections/Stage and Secondary Sections/Stage (Higher Secondary) of the school is managed by different managements then they may be treated as a separate school (entities) and a new 11-digit U-DISE code should be provided to the Secondary (and/or Higher Secondary Section/Stage)”.
